At each Powerball draw, five white balls are extracted from a drum containing 69 balls, and one red ball (the Powerball) is drawn from a drum of 26 balls.

One intriguing addition to Powerball is the Power Play option, which can be added to your ticket for \$1 extra.

Winners who choose the annuity receive an annual payment that increases by 5% each year to account for the rising cost of living.

The approximate cash value of the prize is also announced on the Powerball website.

There is no annuity option with the \$1 million Powerball second prize winnings are always paid as cash.
