NFL teams attempt 2-point conversions about once in every 10 touchdowns.

The previous paragraph points to the fact that three and seven also dominate the

NFL's margin of victory, due to the regularity of scoring these amounts.

Games resulting in a point differential of three or seven accounts for nearly t

he outcome of one in every four games played during this century.

Spectators who feel the Rams will win by more than a field goal bet on the Rams

. A wager of \$110 earns \$100 in profit if the bet prospers.

Most odds of theoretically close games cling to three points, since sportsbooks

know the numbers, too, and assume the huge risk of paying every underdog backer

if the Rams's line moves to 3.

5 and the Bengals happen to win by a field goal, making all underdog bets succee

d.
