Kelly officially signed SB84 into law.

While most people go to Amazon to spend their money, a lot of people learned how to make money from Amazon. Yes. Amazon has turned many people into successful entrepreneurs.

In 2020, Amazon accounted for 37.9% of all online retail sales in North America (Statista).

Here's how it works:

Pick a niche or a product that you are interested in

Similar to private labels, selling wholesale items involves purchasing items in bulk and selling using Amazon's FBA network.

You can find more details about the commission interest rates here.

This is yet another example where you don't earn any cash directly but receive free goodies in exchange for a review.

Amazon Vine program is only offered to people who consistently leave reviews for products on Amazon. The purpose of this program is to encourage people to write honest, unbiased, and helpful reviews.

What's a Fake Review on Amazon?

The number of people ready to write fake reviews is terrifying. Facebook has dozens of groups that trade fake Amazon reviews for money. That's tens of thousands of Facebook users ready to publish fake reviews for products in exchange for a refund or another form of a financial incentive.

You would think that a couple of fake reviews on Amazon wouldn't make any difference on a large scale. However, hundreds and thousands of those reviews can skew the ratings. While they boost sales of the product, fake reviews also hurt the sales of competitors, even though those competitors might have a better quality product.

Amazon's only visible measure in place that's supposed to address the fake reviews concerns is Amazon's Verified Purchase label. If you see the reviews labeled that way, that means that Amazon verified the person who wrote the review actually bought the product on Amazon and didn't receive it at a discounted price. In reality, that doesn't filter out even a half of illegitimate reviews on the platform.

Check the reviews for Amazon's Verified Purchase label.

Use FakeSpot to Uncover Fake Reviews

Third-party sites and tools can be extremely useful when it comes to spotting fake

reviews on Amazon. They use special algorithms that analyze every single review
