They aren't as straight-forward as decimal or fractional odds.
American odds are based around \$100, but how they relate to \$100 varies depending on whether the bet is favored or not.

Plus odds tell you how much profit you will get on a \$100 bet.
50.

Decimal odds are shown as one number, which is the amount a winning bet would collect on a \$1 bet.

The decimal odds would be listed at 1.

However, they are presented, being able to convert your odds into a break-even percentage is a crucial part of understanding what is actually a good bet.

That percentage can be compared to moneyline odds, once you convert the odds to a percentage.

A set of four metal wands so you can use your wrist as a weapon against the devil and stop any evil spirits.

I will never go back to a normal wands.

This is the only product I have seen that is made from a high quality metal and not cheap looking.

I use it every night to help with anxiety and depression.
