When to hit or stand in blackjack?

To hit is an instruction given by players to the dealer to request an extra card

and can be indicated in verbal form or by simply tapping the table.

Whether you should hit or stand always depends on the dealer's blackjack hand.

One of the worst case scenarios is when the dealer has an ace.

However, it is best to stand if the dealer has a seven, 10 or ace.

When you have a pair of fours and a dealer has a five or six then it is best to split.
