Expand Betting rules for football participants

These rules apply to everyone involved in football, from the players and managers, to the match officials and club staff.

Inside information is information that you are aware of due to your position in the game and which is not publicly available - for example, this may be injury or team selection news.

The betting rules are different for those Participants involved solely with a club at Step 5 of the National League System and below and for any Match Official, referee, coach or referee assessor, operating at Level 4 or below.

If you are approached or suspect that a colleague or someone you know has been approached or is involved in fixing, then you must report it to The FA immediately.

You could be offered money or rewards for influencing the outcome of a game by awarding penalties or sending off players.

Alternatively, you may also wish to speak to a representative from the PGMOL or

The FA's Referee's Department.
